Qualifications

To be eligible to apply for clinical core privileges in family medicine, the initial applicant must meet the following criteria

Successful completion of an Accreditation Council for Graduate Medical Education (ACGME) or American Osteopathic Association (AOA) accredited residency in family medicine

or

Current certification or active participation in the examination process [with achievement of certification within 3 years of initial appointment] leading to certification in family medicine by the American Board of Family Medicine or the American Osteopathic Board of Family Physicians

and

Current active licensure to practice as a physician in the State of Texas

Required previous experience

Applicants for initial appointment must be able to demonstrate current competence and provision of care, reflective of the scope of privileges requested, or demonstrate successful completion of an ACGME or AOA accredited residency or clinical fellowship in a clinical setting within the past 12 months.

Reappointment requirements

To be eligible to renew core privileges in family medicine, the applicant must have current demonstrated competency and quality, reflective of the scope of privileges requested, for the past 24 months based on results of ongoing professional practice evaluation and outcomes. Evidence of current ability to perform privileges requested is required of all applicants for renewal of privileges.

Directions

Applicant

Check off the “Requested” box for each privilege requested. Applicants have the burden of producing information deemed adequate by Lone Star Circle of Care for a proper evaluation of current competence, current clinical activity, and other qualifications and for resolving any doubts related to qualifications for requested privileges.

Family Practice Medical Director

Check the appropriate box for recommendation on the last page of this form. If recommended with conditions or not recommended, provide condition or explanation on the last page of this form.

Other Requirements

Note that privileges granted may only be exercised at the site(s) and setting(s) that have the appropriate equipment, license, staff, and other support required to provide the services defined in this document. Site-specific services may be defined in Lone Star Circle of Care policy.

This document is focused on defining qualifications related to competency to exercise clinical privileges. The applicant must also adhere to any additional organizational, regulatory, or accreditation requirements that the organization is obligated to meet.
Request for Privileges

Physician

Specialty: Family Medicine

Applicant

Privileges

☐ Initial Appointment

☐ Reappointment

Sites

The applicant may perform granted privileges at any of the Community Health Center clinics, incorporated as Lone Star Circle of Care, with the provision that privileges only be exercised when appropriate equipment, license, staff, and other support are available.

Core Privileges

Family Medicine Core Privileges

☐ Requested

Evaluate, diagnose, treat, and provide consultation to adolescent and adult patients with illnesses, diseases, and functional disorders of the circulatory, respiratory, endocrine, metabolic, musculoskeletal, hematopoietic, gastroenteric, and genitourinary systems. Assess, stabilize, and determine disposition of patients with emergent conditions consistent with policy regarding emergencies. The core privileges in this specialty include the procedures on the procedure list and such other procedures that are extensions of the same techniques and skills.

Pediatric Core Privileges

• Criteria

Must qualify for and be granted privileges in family medicine plus

• Required previous experience

Demonstrated current competence and evidence of the provision of care, reflective of the scope of privileges requested, to at least 10 pediatric patients in the past 12 months.

• Maintenance of privilege

Demonstrated current competence and evidence of the provision of care to at least 25 pediatric patients in the past 24 months based on results of ongoing professional practice evaluation and outcomes.

☐ Requested

Evaluate, diagnose, and treat pediatric patients up to the age of 18 with common illnesses, injuries, or disorders. This includes the care of the normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation. Assess, stabilize, and determine disposition of patients with emergent conditions consistent with policy regarding emergencies. The core privileges in this specialty include the procedures on the procedure list and such other procedures that are extensions of the same techniques and skills.
Gynecology Core Privileges

- **Criteria**
  Must qualify for and be granted privileges in family medicine plus

- **Required previous experience**
  Demonstrated current competence and evidence of provision of care, reflective of the scope of privileges requested, to at least 10 gynecologic inpatients in the past 12 months.

- **Maintenance of privilege**
  Demonstrated current competence and evidence of provision of care to at least 25 gynecologic patients in the past 24 months based on results of ongoing professional practice evaluation and outcomes.

- **Requested**
  Evaluate, diagnose, treat, and provide consultation to post-pubescent female patients with injuries and disorders of the female reproductive system and the genitourinary system. Assess, stabilize, and determine disposition of patients with emergent conditions consistent with policy regarding emergencies. The core privileges in this specialty include the procedures on the procedure list and such other procedures that are extensions of the same techniques and skills.

Geriatric Medicine Core Privileges

- **Applicable**
  When a family medicine physician treats geriatric patients only

- **Criteria**
  Successful completion of an Accreditation Council for Graduate Medical Education (ACGME) or American Osteopathic Association (AOA) accredited residency in either family or internal medicine
  or
  Current subspecialty certification or active participation in the examination process [with achievement of certification within 3 years of initial granting of privileges] leading to subspecialty certification in geriatric medicine by the American Board of Internal Medicine, or the American Board of Family Medicine, or a Certificate of Added Qualifications in Geriatric Medicine by the American Osteopathic Board of Family Physicians.

- **Required previous experience**
  Applicants for initial appointment must be able to demonstrate provision of care, reflective of the scope of privileges requested, for at least 24 patients as the attending practitioner during the past 12 months or demonstrate successful completion of an ACGME or AOA accredited residency or clinical fellowship in a clinical setting within the past 12 months.

- **Maintenance of privilege**
  Current demonstrated competence and an adequate volume of experience (50 patients) with acceptable results, reflective of the scope of privileges requested, for the past 24 months based on results of ongoing professional practice evaluation and outcomes. Evidence of current ability to perform privileges requested is required of all applicants for renewal of privileges.

- **Requested**
  Evaluate, diagnose, treat, and provide consultation to older adult patients with illnesses and disorders that are especially prominent in the elderly or have different characteristics in the elderly. Assess, stabilize, and determine disposition of patients with emergent conditions consistent with policy regarding emergencies. The core privileges in this specialty include the procedures on the procedure list and such other procedures that are extensions of the same techniques and skills.
Core Procedure List

This list is a sampling of procedures included in the core. This is not intended to be an all-encompassing list but rather reflective of the categories/types of procedures included in the core. If you wish to exclude any procedures, please strike through those procedures that you do not wish to request, initial, and date.

General

1. Arthrocentesis and joint injection
2. Burns, superficial and partial thickness
3. Chronic ventilator management
4. I & D abscess
5. Local anesthetic techniques
6. Manage uncomplicated minor closed fractures and uncomplicated dislocations
7. Perform history and physical exam
8. Perform simple skin biopsy or excision
9. Peripheral nerve blocks
10. Placement of anterior and posterior nasal hemostatic packing
11. Remove non-penetrating foreign body from the eye, nose, or ear
12. Suture uncomplicated lacerations
13. Blood Glucose Point of Care Testing
14. Hemoglobin A1c Point of Care Testing
15. Influenza Point of Care Testing
16. Mononucleosis Point of Care Testing
17. Pregnancy Point of Care Testing
18. RSV Point of Care Testing
19. Strep A Point of Care Testing
20. Urinalysis Point of Care Testing
21. Fecal Occult Blood Point of Care Testing
22. Pertussis Point of Care Testing

Pediatrics

1. I & D abscess
2. Manage uncomplicated minor closed fractures and uncomplicated dislocations
3. Perform history and physical exam
4. Perform simple skin biopsy or excision
5. Remove non-penetrating corneal foreign body
6. Suture uncomplicated lacerations
7. Blood Glucose Point of Care Testing
8. Hemoglobin A1c Point of Care Testing
9. Influenza Point of Care Testing
10. Mononucleosis Point of Care Testing
11. Pregnancy Point of Care Testing
12. RSV Point of Care Testing
13. Strep A Point of Care Testing
14. Urinalysis Point of Care Testing
15. Fecal Occult Blood Point of Care Testing
16. Pertussis Point of Care Testing

Gynecology

1. Biopsy of cervix, endometrium
2. Colposcopy
3. Cryosurgery/cautery for benign disease
4. Diagnostic cervical dilation and uterine curettage
5. Excision/biopsy of vulvar lesions
6. Incision and drainage of Bartholin duct cyst or marsupialization
7. Insertion of intrauterine devices
8. Perform history and physical exam
9. Removal of foreign body from vagina
10. Suturing of uncomplicated lacerations
11. Uterine curettage following incomplete abortion
12. Blood Glucose Point of Care Testing
13. Hemoglobin A1c Point of Care Testing
14. Influenza Point of Care Testing
15. Mononucleosis Point of Care Testing
16. Pregnancy Point of Care Testing
17. RSV Point of Care Testing
18. Strep A Point of Care Testing
19. Urinalysis Point of Care Testing
20. Fecal Occult Blood Point of Care Testing
21. Pertussis Point of Care Testing

**Geriatric Medicine**

1. Apply the general principles of geriatric rehabilitation, including those applicable to patients with orthopedic, rheumatologic, cardiac, and neurologic impairments
2. Assess patient to includes medical, affective, cognitive, functional status, social support, economic, and environmental aspects related to health
3. Manage areas of special concern such as falls and incontinence

6. Perform history and physical exam
7. Recognize and evaluate cognitive impairment
8. Treat and prevent iatrogenic disorders
9. Blood Glucose Point of Care Testing
10. Hemoglobin A1c Point of Care Testing
11. Influenza Point of Care Testing
12. Mononucleosis Point of Care Testing
13. Pregnancy Point of Care Testing
14. RSV Point of Care Testing
15. Strep A Point of Care Testing
16. Urinalysis Point of Care Testing
17. Fecal Occult Blood Point of Care Testing
18. Pertussis Point of Care Testing
Acknowledgement of Practitioner

I have requested only those privileges for which by education, training, current experience, and demonstrated performance I am qualified to perform and that I wish to exercise at designated Lone Star Circle of Care sites, and I understand that:

a. In exercising any clinical privileges granted, I am constrained by Lone Star Circle of Care policies and rules applicable generally and any applicable to the particular situation.

b. Any restriction on the clinical privileges granted to me is waived in an emergency situation and in such situation my actions are governed by the applicable section of the appropriate policies or related documents.
