

He dado positivo a COVID-19. ¿Qué hago ahora?

AÍSLESE. Independientemente del estado de su vacunación

Slide 2

[@Claire Hutkins Seda] In the previous slide we are recommending to take the test on DAY 6. Should we say here day 6?

Mónica Fossi, 2022-09-05T20:30:24.169

CHS0 0

Yes, please! It's confusing because CDC calls the day of exposure "day zero" so they say test on day 5 but really it's day 6 for normal people.
