

## Are you interested an internship that makes a difference in the community?

# Join Ventanilla de Salud!

### Who are we?

Ventanilla de Salud (VdS) is a program operated in partnership with the Mexican Consulate that provides **orientation, education, and access to health services** to Latino and migrant communities.

The VdS program is implemented by **Migrant Clinicians Network (MCN)**, a national organization dedicated to advance **health equity for migrant populations by developing tools and resources for healthcare providers.**

### What do we offer?

- **Hands-on experience in community health**
- **Opportunities to participate in events** (fairs, outreach campaigns, presentations)
- **Skill development in:**
  - Health education
  - Service navigation
  - Working with diverse communities
  - Migration and public policy
  - Community development and social research

### Who are we looking for?

**Students interested in community well-being and health equity, in fields such as:**

- Public health, nursing, nutrition, or other health disciplines
- Psychology, counseling, or social work
- Health education and promotion
- Communication and community education
- Community development
- Social studies (migration, public policy, Latin American studies, etc.)

### Requirements

- **Proficient in Spanish** (fluency in English recommended)
- College or community college student
- Interest in Latino/immigrant communities
- Availability of 10–16 hours per week
- Cultural sensitivity and interpersonal skills

**Apply by scanning the QR code**
