

Exercise # 2: Community Contribution

Contributing to the community allows our actions to endure over time, benefiting future generations and strengthening society.

Mention 3 things you would like to address in your community and write them in order of priority.

Example: (1) Lack of information about support for farmers, (2) Lack of drinking water, (3) Community emergency management plan,

1.

2.

3.

Why is it important to care for them in the community?

Example: (1) It is important for farmers to know about government assistance; (2) It is important to have clean water for everyone's health; (3) It is important to have a community emergency management plan since we are facing climate change

- 1.
- 2.
- 3.

Choose the first one you indicated in order of priority and answer: what steps can you take today to come up with solutions?

Example: (1) Lack of information on support for farmers.

Steps to be taken: (1) Identify community members to talk to about an initiative to work on; (2) Seek information about government agencies; (3) Visit government offices
