Hi Dennis, I hope this finds you doing well. I really miss not talking to you and working with you on a more frequent basis. Candace and I just moved to Upstate NY to be closer to our two granddaughters but we are still working for MCN. I hope that you will pass this request on many of your friends down there so they can help us with this very important issue that I know is “near and dear” to your heart. I hope our paths cross again real soon.

Farmworkers have waited 20 years for a stronger Worker Protection Standard (WPS), the regulation that requires basic safeguards for farmworkers to minimize the adverse effects of pesticide exposure. MCN’s National Clinician Sign-On Letter endorses many aspects of the proposed rule and calls for additional, stronger safeguards to better protect farmworkers. Please take a moment to read the letter and sign on if you desire. We would appreciate it too if you would share this with your colleagues and encourage them to sign on.

Thanks and warm (and I do mean warm given our winter!!!) regards,

Hi Seth! Hope you are doing well.

Would you please take a minute to click on the link below and sign on to a letter Migrant Clinicians Network (MCN) has drafted regarding the long awaited revised Worker Protection Standard (WPS), the regulation that requires basic safeguards for farmworkers to minimize the adverse effects of pesticide exposure?

We’ve waited 20 years for a stronger WPS. MCN’s National Clinician Sign-On Letter endorses many aspects of the proposed rule and calls for additional, stronger safeguards to better protect farmworkers.

I would appreciate it if you would sign on and share this call to action link with your colleagues. Please ask them to sign on to help protect farmworkers!

Warmly,

Del

Hi Mike. I hope this finds you doing well.

Please take a moment to click on the link below to read and sign on to a letter Migrant Clinicians Network (MCN) has drafted regarding the long awaited revised Worker Protection Standard (WPS), the
regulation that requires basic safeguards for farmworkers to minimize the adverse effects of pesticide exposure.

We've waited 20 years for a stronger WPS. MCN's National Clinician Sign-On Letter endorses many aspects of the proposed rule and calls for additional, stronger safeguards to better protect farmworkers.

We would appreciate it if you would sign on and share with your colleagues this call for clinicians to take action, asking them to sign on to help protect farmworkers.
