HEALTH NETWORK

How do you assure continuity of care to a patient who is never sure where or when the next move is going to happen?

Health Network assures continuity of care and treatment completion by providing comprehensive case management, medical records transfer and follow up services for mobile patients.

Provided bridge case management to
62 countries
45 U.S. states

Health Network serves pregnant women who move during the course of their pregnancy.

Of these women had a baby at the target birth weight **97%**

22,786 encounters with clinics & patients

43% increase from 2011

"MCN works world wide to provide continuity of care services within US and anywhere in the world. MCN's communication and follow-up with patient and health care giver is very regular and establishes TRUST."
- Diana Elson, DrPH, MA, CDR USPHS

"MCN is instrumental in establishing continuity of care for patients with known TB and other diseases"
- Marc Clough, LCDR, Texas

661 newly enrolled patients

1,119 total patients

Tuberculosis completion rate < 1 year

62.5 encounters per day

Total contact minutes

122,760

records transferred
2,557

"As an Outreach Worker and Case Manager, I love being able to refer clients into the program and know that after they leave us their care will continue and that when they return to us we will be able to know where they are in their care without having to go through red tape after red tape at numerous locations before we can know where to start"
- Kamis Ley, Haitian Creole Outreach Worker, Maine
